

# NURTURING PARENTING

*In-home parent education and case management services*

Nurturing Parenting provides in-home parent education and case management services designed to build nurturing skills as alternatives to negative parenting attitudes and practices.

## HOW IT WORKS

- Designed for the treatment and prevention of child abuse and neglect
- Trained facilitators use evidence-based assessment tools and curriculum materials to identify “high risk” parenting practices and beliefs that could potentially put a child at risk
- Family based interventions teach parents children similar skills for improving the quality of their lives
- Successes are recorded and charted with built-in assessment strategies
- A combination of lesson guides, DVDs, parent handbooks and assessment inventories are used based on each individual family’s needs
- Customized curricula build on parents’ strengths and address weaknesses in order to reduce or eliminate the need for future intervention

***All services are free of charge for families with Medicaid/Medicare or those who are referred by Bucks County Children and Youth Social Services Agency.***

## SKILLS WE TEACH

- Communication between parents and children
- Growth and development of children in all ages and stages
- Taking charge of behavior and understanding discipline techniques
- Managing stress and anger, handling feelings and developing empathy
- Establishing daily routines
- Prenatal parenting

## PARTICIPATION & ELIGIBILITY
