

Hello QCSD families.

We are looking forward to seeing all of our students again whether in-person or virtually this fall. We understand how important technology is to their learning as we move forward with the coming year. The Technology Department has been busy preparing for the new school year and has some important upcoming dates for device pickup and return in order to ensure all students will continue to have technology. Here are the affected grade levels:

Incoming 9th-grade students will receive a new 14" Chromebook which they will maintain until their graduation. 9th-grade families will need to return their current 11" Chromebook so that we can reassign as needed to lower grade levels.

Incoming 6th-grade students will receive a new 11" Chromebook as well as return the current device assigned to them. Currently these devices are ordered, but we are still awaiting an ETA.

Lastly, incoming 2nd-grade students will be assigned a Chromebook and will need to return their iPads as those will partially be reassigned to incoming Kindergarten students.

Students at all other grade levels will keep the device issued to them in March 2020 and do not need to do anything unless their device needs repair. We will be providing hours for any students who are currently experiencing problems with their devices to have them addressed before the start of the school year.

We will be sanitizing all devices and following all safety precautions during this time of distribution and drop-off. I've included the schedule below for days and times for each grade level to come to the District Services Center for the device pick-up/drop-off. A separate message will be sent to each grade level with more specific instructions and safety protocols for their assigned day.
