Medical Certification

Hospital-Homebound (HHB) instruction is academic instruction provided to students who are confined at home or in a health care facility for periods of time that would prevent normal school attendance based upon medical certification of need by the licensed physician or licensed psychiatrist who is treating the student for the presenting diagnosis. To be considered eligible for HHB instructional services, the student's attending physician/psychiatrist anticipates student absences for a minimum of ten consecutive school days for acute illness, injury, or surgery, and anticipates intermittent absences at a minimum of ten school days per year for the chronically ill students. (HHB rule 160-4-2-.31)

NOTE: *Students with incomplete forms cannot be approved for Hospital Homebound Services.*
Please type or print and return to the Hospital-Homebound Department ASAP.
